

BERGAMOT ALLEY PRESENTS THE FOURTH ANNUAL

SEVEN % SOLUTION

2016

CELEBRATING AND PERPETUATING VARIETAL DIVERSITY IN CALIFORNIA

Roughly 93% of Northern California Vineyard acreage is planted to only eight grape varieties. The remaining seven % of acreage is home to hundreds of lesser known varieties. An ardent force of winemakers and farmers are tending terroirs and emphatically shifting these proportions.

This tasting features twenty six outstanding California wineries, the winemakers that champion these varieties, and the rare opportunity to taste their 'Seven %' Solutions.

**FRIDAY
MAY 13
